

# Keys to Successful Hotel Management Software

## SAFE and SECURE

DSC Hotel Software utilizes a unique configuration maximizing security and reliability of your system. Virtual Servers are never shared with other hotels - your data is backed up on secondary servers to allow instant re-installation of your system.

## Keep it SIMPLE

The Hotel Industry is facing hiring challenges - The DSC System is designed so anyone can use it quickly - new employees can be trained in minutes - even if they have never worked in a hotel. DSC Support agreements include training for new staff members.

## SPEED of Service

**Dedicated to the Hospitality Industry Since 1979**

DSC's effective design improves service with important functions streamlined, such as reservations, check-ins, checkouts and group handling. DSC Software is well known for providing the most efficient and cost-effective solution.

## SYSTEM Features

**DSC Front Desk:** Reservations, Front Desk, Groups, Tours, Packages Housekeeping, Night Audit, AR, POS, Custom reporting and all required modules to effectively manage independent or chain properties from 50 to 2500 rooms.

**DSC Sales and Catering** includes Sales Contact Management, Function Booking, Contracts, Menus, Departmental Reporting, Multi-day events, Conventions and everything necessary to run an efficient Catering Department.

**DSC Force One** is a unique highly secure system designed specifically for military applications. Canadian and US Forces' specific procedures and billing requirements are written into the system, with scaled back functionality to maximize efficiency. Operates on military servers, or on Azure Military, with no external connectivity..

Dedicated to the Hospitality Industry Since 1979

## SOLID Cloud Platform

The Microsoft Azure Cloud hosts separate DSC Virtual Servers for each application running your DSC System - Data Centers around the world provide instant backup and restore capabilities, as well as unparalleled response time and security. Work from home, while travelling, anywhere, on any device.

## SAVE Time

DSC Customers have told us the speed and efficiency of DSC Software saves hours and reduces costs. Labour is the highest cost in a hotel; reducing training time, check-in time and many of the daily tasks in running a hotel is crucial and one of the DSC Hotel Systems' greatest benefits. Designed by Hotel Managers, DSC Software continues as a leader in highly efficient solutions at affordable prices.

### Testimonial

"DSC Software is a fast, efficient hotel management system that staff can learn quickly. The costs are lower than most other systems - and now that DSC is on the Cloud, it is the perfect solution for most properties."  
Lutz Wolff, BC Hospitality Legend
